## RELIGIOUS

### A Resume of Events In Religious Circles For Present and Future

Fire destroyed the tabernacle at the Mt. Hope Camp meeting grounds near Poplar Plains, in Fleming county. The fire was apparently of incendiary origin. There was no insurance on the structure. It was expected to open the grounds on July 20.

Rev. Frank M. Tinder has tendered his resignation to the congregation of the North Middletown Christian church, and will go to Lexington to reside. The resignation will take effect the latter part of August. Rev. Tinder has accepted the pastorate of the Providence Christian church, in Fayette county. Rev. Tinder has been in North Middletown for several years, and is one of the most widely-known ministers in Central Kentucky. Prior to going to North Middletown he was pastor of the Christian church at Carlisle.

### PRESBYTERIAN CHURCH

The sermon subjects for Sunday are: Morning, "Stripped For Action," evening, "Living Behind The Bars." At the close of the morning service a congregational meeting will be held for the purpose of electing four deacons. This meeting has been postponed for some time. It is hoped that all of the members of the church will make an effort to be at this congregational meeting. Hours of service: Preaching, 10:55 a.m. and 7:30 p.m.; Sunday School, 9:30 a.m.; Christian Endeavor, 6:45 p.m. Everybody welcome.

The Junior Endeavor of the Presbyterian church will meet with the Senior Endeavor at 6:30, Sunday evening. A special meeting of the Juniors will be held at 6:00 in the Junior room, and all members are urged to come.

### CHRISTIAN CHURCH

Sunday morning at 10:45 Rev. W. E. Ellis will have as his subject, "The Crusader." The service in the evening will be at 7:15, and will be on the front lawn of the church and will consist mostly of singing. However, Mr. Ellis will speak for a few minutes. His topic for the vesper service will be the "Two Tremblers." The public is cordially invited to both services.

Sunday School will meet at 9:30. The Woman's Society will meet Tuesday, July 11th, at 10 o'clock, in the church parlors for an all day sewing. Lunch will be served and the business session held in the afternoon.

The regular meeting of the Woman's Missionary Society will be held in the church parlors at 3 p.m. Friday, July 7, with the new president, Mrs. Wallace Kenney, in the chair. The meeting will be preceded by an executive session of officers and group leaders at 2:30. Mrs. John T. Hedges' group will have charge of the program.

### ORDER YOUR BLACKBERRIES

Don't wait until they are all gone before you place your order. Order to-day and you will get them as soon as possible.

### COMMUNITY SERVICE WEEK

The colored division of Community Service is planning a program of activities for the week beginning July 21, through July 28, which will be known as Community Service Week, and all proceeds realized from the various entertainments will be given to Community Service.

The program, which will begin with a pageant, entitled "The Perfect Woman," and which will be staged by the summer school teachers Friday evening, July 21, in the Western High School auditorium, is in charge of the Community Service Committee and the local executive secretary.

### COURT NEWS

Sheriff M. Peale Collier and Deputy Sheriff James Gibson raided the establishment of Andrew Love, in the colored suburb of Claysville, and captured eleven negroes, all being charged with gambling. When arraigned before County Judge George Batterton, two were fined \$20 and costs. The others were discharged after they had proved that they were merely spectators.

Will Hayes, colored, who escaped from officials of the Sheriff's office recently, when they raided a crap game near Hutchison, was captured by Lexington police in that city. In a telephone conversation with County Judge Batterton, Hayes entered a plea of guilty, and was fined \$30 and costs, ten dollars more than was given the eleven men arrested at the time of the raid. Hayes paid the fine and was released from custody.

## PARIS AND LEXINGTON AUTOS COLLIDE

Mr. and Mrs. Fred Burke and their four-year-old daughter, Luretta, of Lexington, were severely cut about the head and face shortly after seven o'clock, Tuesday night, when the machine in which they were riding crashed into another, driven by Braxton Howard, colored, of Paris, at the corner of Jefferson and East Third streets, in Lexington.

The Burke machine was going south on Jefferson street and the other machine was going east on Third street when the crash came. Both cars were overturned, with the Burke machine suffering the more serious damage, with a broken wheel and smashed fenders.

Mrs. Burke and daughter were taken to St. Joseph's Hospital, where their wounds were dressed. Mr. Burke suffered from a scalp wound. Howard was unhurt.

Both Howard and Burke were arrested, charged with reckless driving. Their cases were continued in Police Court Wednesday morning until July 12, on account of members of the Burke family being unable to be present.

### F. & C. TIME TABLE CHANGE UN-SATISFACTORY

As the result of a change in the schedule of the Frankfort & Cincinnati railway between Frankfort and Paris, effective Saturday, travel and mail service in the afternoon from Louisville to Stamping Ground and other stations on the road except Georgetown, has been rendered impossible. Among places on the road shut off by the change are Elizabeth and Centerville, in this county.

A morning train which formerly left Paris at 9:30 o'clock has been made a mixed train and now runs at 8:45. The net result of this change, so far as passenger travel is concerned is that there are now seventeen Kentucky towns and railroad stations, none more than ninety miles from Louisville and some less than fifty, which it is impossible to reach by rail the same day if one leaves after ten o'clock in the morning.

P. F. Manning, general manager of the Frankfort & Cincinnati, said that he had notified the Louisville & Nashville ten days ago, and that the change was necessitated by conditions of the road demanding economy. He said he did not see any way out of the difficulties arising unless connections can be made at Paris with the Louisville & Nashville for mail service. This can not be done at present.

### BOURBON HORSES CONSIGNMENT TO SARATOGA SALES

This coming August Edward J. Tranter, president and general manager of the Fasig-Tipton Sales Company, estimates that his company will sell upward of five hundred thoroughbreds of various sexes that will come of racing age January 1, at the sales to be held at Saratoga, New York.

Arthur B. Hancock, who is maintaining studs at Claiborne farm, near Paris, and Ellerslie, in Virginia, will lead off on August 4 with his Claiborne staff and his sale will be particularly attractive because he will offer to buyers the first yearlings by Omar Khayyam that will appear in the market. Omar Khayyam, son of Marco and Lisma, was one of the most successful English horses that ever raced in the United States. He won the Travers, Kenner, Kentucky Derby and Lawrence Realization Stakes and the Saratoga Cup of 1917, and was Hourless' most formidable rival for the three-year-old crown.

Omar Khayyam is owned by Mrs. Wilford Vian, of Montreal. Mr. Hancock has him under lease and at service at Claiborne.

The most considerable consignments will come from the Claiborne and Ellerslie and Himyar studs. Mr. Hancock will offer 55.

The produce of the Xalapa Farm of Edward F. Simms, near Paris, will be offered in the sales on Thursday, August 17.

### CHAUTAUQUA COMMITTEEMEN MEETING

A meeting of the Committeemen for the Redpath Chautauqua will be held in the office of the Paris Commercial Club Tuesday morning, at 10:30 o'clock. The meeting will be held for the purpose of checking up the tickets in the hands of the Tick Committee, and to arrange for disposition of the remaining tickets to be placed on sale. H. H. Bowen, Chautauqua advance agent, will be present, and all the members are urged to attend.

## BASE BALL

LEAGUE STANDING	Won	Lost	Pct.
Maysville	16	6	.727
Lexington	12	9	.571
Paris	12	10	.545
Winchester	10	12	.455
Cynthiana	9	13	.409
Mt. Sterling	6	13	.286

The "Glorious Fourth" was truly a glorious day in the annals of baseball for Paris Mammoths, who journeyed to Maysville, Tuesday, for a game with the Maysville team, in the Blue Grass League struggle. When the final was chalked up, the score read, Paris 2, Maysville 0.

The game was a pitchers' duel, with Miner, the husky Paris south-paw, carrying off the honors. The Paris team has the honor of administering the first gooseeggs to the Maysville team for the season. The Maysville team lost their chance to win in the first two innings when they failed to cross the home plate after getting two hits in each inning. After that Miner had his own way. Miner hit down the foul line in the third inning, the ball going between machines for a three-base hit. Singles by Coyle, Cicona and Brockman in the ninth inning resulted in Paris getting two more runs. The batteries were: For Paris, Miner and Macke; for Maysville, Bosken and Connolly. The game went an hour and thirty-five minutes. Goetz umpired. A large delegation of Paris fans witnessed the game.

The Maysville Bulletin says of Tuesday's game with Paris: "Before the biggest crowd that has ever attended a game at League Park, Miner, of the Paris Mammoths handed 'our boys' their first shut-out of the season."

The game was a pitcher's battle between Bosken and Miner, from the start and it was just a question of who the break would fall to, and as the score indicates, fate was more kind to the Paris aggregation than to the Cards. Though Miner received the breaks this does not discredit his pitching, as he pitched a most masterful game, and, with men on bases was invincible. The Cards had many opportunities to score, but each time Miner proved his superiority and 'our boys' had to be satisfied to reach third.

The game was unquestionably the best that has been played this year, fast and interesting from the start, both sides playing great ball. If it was a heart breaker to lose, but, if the game was made to order before such a tremendous gathering, one could not have wished to see a better game of the national pastime.

At a meeting of Blue Grass League managers, with President Thos. M. Russell presiding, held at Cynthiana, Wednesday night, the question of changing the twice-a-week schedule to three games a week was decided, and in the future three games a week will be played in the League towns. The first game of the schedule will be the same as those now carded under the old schedule, and will find Winchester, at Paris, Lexington at Mt. Sterling, and Cynthiana at Maysville, next Sunday.

The League season is to be split, and the teams will start on even terms under the new card, which will call for forty games for each team, the season closing Sunday, October 8. Maysville is the winner with a total of sixteen games won, and six lost. It was stipulated that Lexington should have ten Sunday games at home, and each of the others either six or seven Sunday dates. The Cynthiana club also requested that all of its Saturday dates be played away from the home diamond.

The game scheduled for to-day in the Church League has been postponed until a later date. The Methodist team yesterday defeated the Paris All-Star team in a game on Hancock Field by a score of 5 to 3. Woods, pitcher for the All Stars, struck out eleven batsmen, while his opponent, Owens, of the Methodist team, fanned ten.

### MAY LOSE EYESIGHT

Drs. Kenney & Stoekinger performed an operation at the Massie Memorial Hospital, on Detective J. T. Lynch, of Hamilton, Ohio, who was injured in an auto accident near Paris some time ago, and whose recovery was for a time thought very doubtful. A portion of the skull which had been pressing on the brain, was removed. The patient rallied nicely from the effects of the operation, and is making rapid improvement. His physicians say that he will be able to leave the institution shortly, but that there is a possibility that the sight of one eye has been permanently destroyed.

## DEATHS

### Life Is But A Brief Span, A Debt That All Must Pay

#### BOWEN

Mrs. Phoebe Bowen, wife of A. B. Bowen, and sister of Mrs. E. Brewsaugh, of Paris, died at her home near Renaker, in Harrison county, after a long illness from a complication of diseases. She is survived by her husband and one little daughter. The funeral was held Tuesday afternoon, with services conducted by Rev. A. Redd and Rev. F. D. Swanson. The burial took place in the Pythian Cemetery, at Berry.

#### DUNN

Mrs. Mary A. Dunn, aged seventy-two, died Wednesday morning at her home on East Eighth street, in this city, after a long illness due to a complication of diseases. Mrs. Dunn was the wife of Wm. Dunn. Besides her husband she is survived by four children, Mrs. Maude Resser, of Connerville, Indiana, John and Claude Dunn, of Paris, and Newton Dunn, of near Paris.

The funeral will be held at two o'clock this afternoon, at the grave in the Paris Cemetery, with services conducted by Rev. C. H. Greer, pastor of the Paris Methodist church.

### "AIN'T WE GOT FUN?"

Cynthiana people are having some of the trouble that Paris and other towns have experienced in the past. At a dance given at Sherwood Hall, in Cynthiana, Tuesday night, a young man from Paris, drunk, started a fight on the floor in the early hours of the morning. The police were called, and after a chase through the streets, arrested him and locked him up for the night.

The Paris man, whose name was not divulged in the proceedings, was haled before Police Judge Clary, Wednesday afternoon, and fined \$59.85. "Tell your Paris friends who come down here drunk that they will get the same thing," said Judge Clary. "You needn't lecture me," said the Paris man, "I'm not coming back."

### COMMENT WITH A LOCAL APPLICABILITY

Under the caption of "A Curse of Small Communities," The Cynthiana Democrat comments editorially on a matter affecting a Paris enterprise:

"In a neighboring county a fight has developed between rival bus lines. One party established a line, ran it at a loss for some time, and when it finally began to pay another party started in over the same route, timing his schedule a few minutes ahead and thus capturing the larger part of the patronage. The original bus people are protesting through the papers, but it will do no good. Competition may be the life of trade, but in small communities where patronage is limited it is often the death of enterprise. Where one business in a certain line might serve the public and make a fair profit, two or more in the same line make all lose money and eventually go to pot. That sort of thing is the curse of every small community. Nearly all lines are overdone. Nobody makes any money. Enterprise is stifled. Civic spirit is killed. And yet some people wonder why a town does not grow."

### ON PARIS PLAYGROUNDS

The playgrounds will celebrate stunt night Friday, July 14, on the Wilson playground. The Brennan will present the famous "Pig Tail Quartet" that is advertised as being the only one of its kind in captivity. The City School will burn "Old Man Get Mad" at the stake. He has been tried and convicted by the playground court. A shadow-graph show called "The Ballad of Mary Jane" will be given by the children of the Wilson playground. The boys' base ball team of the City School defeated the Brennan team by a score of 12 to 3. The girls base ball team made its first appearance on the Brennan playground Wednesday afternoon when the Brennan team defeated the Wilson team 22 to 21.

### HAVE NARROW ESCAPE

Mr. and Mrs. L. A. Soper of Paris, had a narrow escape from serious injury on the Lexington pike, when their machine overturned. Mr. and Mrs. Soper were returning from Louisville, and when near the sub-station of the interurban line, one of the rear wheels of the machine collapsed, causing the car to turn over. A large truck coming behind them was ditched by the driver to avoid running into the wrecked car. The machine was badly damaged. Mr. and Mrs. Soper escaped with a few scratches, but the latter suffered from a nervous shock.

## THE CHRISTIAN EDUCATIONAL CAMPAIGN

A call has been issued to the Presbyterian pastors of Kentucky to fix date for special service in behalf of the movement for Christian Education. As soon as possible the date will be announced. Encouraging letters have been coming into headquarters, 109 East Broadway, Louisville, from every section of the State, not only from Presbyterians, but from other denominations, congratulating the united commission on the proposed campaign. Former students of Centre College, the Louisville Seminary and Kentucky College for Women are offering to aid in the work.

While the financial goal of the campaign is to secure \$1,000,000 for Christian education—it must not be forgotten that other results will flow from the successful completion of such a campaign. Among the by-products of the campaign, the director, Mr. McGill, mentions the following: A larger Presbyterian consciousness; a wider Presbyterian fellowship; an increasing interest in Christian education; the development of Christian benevolence; life enlistment for a whole-time Christian service; an increased number of workers for the local church; the promotion of the prayer spirit.

The funeral will be held at two o'clock this afternoon, at the grave in the Paris Cemetery, with services conducted by Rev. C. H. Greer, pastor of the Paris Methodist church.

### AUTO RAMS WALL

While en route to his home in Carlisle, Tuesday night, Estill Snapp was painfully, but not seriously injured when his auto ran into a concrete culvert below Millersburg.

The accident happened at a point about three miles below Millersburg. Mr. Snapp lost control of his machine, which swerved from the road, striking the side of a concrete culvert. A part of the wall was broken off, and both right wheels, the rear fender and running board of the machine torn off. The car plunged into a ditch at the side of the road. Mr. Snapp was thrown out, sustaining slight injuries. A passing autoist picked Mr. Snapp up and took him to his home, where his injuries were given medical attention.

#### PHILLIPS—JOHNSON

The marriage of Miss Addie Phillips, of Flanagan, Clark county, and Mr. Wallace B. Johnson, of Austerlitz, was solemnized Wednesday afternoon in the private office of County Judge George Batterton, who officiated.

The bride is a daughter of Mr. and Mrs. Wm. Phillips, of Flanagan, and the groom is a son of Mr. and Mrs. J. W. Johnson, of near Austerlitz. The young couple will reside at Flanagan, where the groom is engaged in farming.

### THE GLORIOUS FOURTH PASSES OFF NICELY

"The Day We Celebrate," July Fourth, was observed in Paris in a quiet manner, with the exception of the small boy, who would not be content without his fireworks. And there was some larger ones too, who were in the same mood. The banks and the postoffice and most of the business houses were closed, while their employees took a holiday. Many took advantage of the day to visit the big picnic given by the Knights of Columbus, in

**EDITORIAL FLINGS****Apply Externally**

The biggest baseball star of all is sometimes figured cheesy, And that's because he always makes The hardest plays look easy.

The major hardships of old age for the average Paris man is that new dance steps are invented by youthful miscreants just as "Foxy Grandpa" has begun to fancy himself efficient in the ballroom.

A Paris woman who resents criticism of knickerbockers worn by women for country hikes says a man who objects should try walking "in even a short skirt." But suppose the man who tried it should happen to be a Scotchman?

**Popular Song Paraphrased**

They're forever digging, digging, Digging up the Paris street. They dig so deep They dig so low, There's no telling how far they go. They're forever digging, digging, Digging up the Paris streets.

A coal strike, a railroad strike, and other things too numerous to mention. But otherwise the outlook is good, save that the weather is trying, and many dogs and a few humans have the rabies, and chiggers infest the blackberry patches. Otherwise, all is well!

A writer on agricultural topics points out that, inasmuch as hogs do not perspire, they must be provided with plenty of shade and a cool wallow, preferably in running water. Human beings who do perspire, must struggle along without running water if unable to pay a plumber \$9.00 a day.

Twenty-five years ago a two-hundred pound man rode a thirty-pound bicycle which he pushed with his legs. Nowadays a ninety-eight pound youth drives a 5,000-lb. automobile with twenty-six cent "gas," and the cost of living is a maeter upon which he is eloquent. Old-time Paris bicyclists well remember the first part of this!

Within the next day or two it will be possible to determine whether the striking railroad workers went out on a week-end excursion, which nobody will begrudge them, or do actually refuse to listen to saner counsels and propose to place themselves in opposition to the agencies of the Government created for the express purpose of dealing with, and settling, just such emergencies as have arisen.

How mutable is the mood of man, the sport of circumstances. Now, for instance, as we did on July Fourth, you greet the telephone girl at "Central" with a cheery "Hello," and blank dumb silence reigns for twenty-seven long minutes by the watch. Perhaps the operator on that particular section of the switchboard was watching the holiday festivities. Perhaps the line was busy. Anyway, after waiting an interminable time and getting no answer, you reverse the word "Hello," and resign yourself despondently.

Ninety per cent of the gasoline product in the United States is used for operating motor vehicles.

**WHEN HARDING WISHES HE WERE NOT PRESIDENT**

There are times that I wish for a little while that I were not President of the United States.—President Harding to the Women's Republican Club of New Jersey.

Recent events in President Harding's administration make it possible to specify some of the times when the President would logically, at least, have such a wish. For instance:

When he reflects upon the exposure of his personal appointee, political sponsor and former campaign manager, Attorney General Daugherty, in connection with the pardon of Charles W. Morse, reads the demands in the Republican press for Daugherty's resignation, and the resolutions by Republican Congressmen, for an investigation, noting, as any intelligent man must, the loss of public confidence in Mr. Daugherty as the head of the great Department of Justice.

When he recalls that the seating of his personal friend and associate, Senator Newberry, in a purchased seat has been condemned from one end of the country to the other and recalls the exclamation of the then Senator Kenyon, now Judge Kenyon, "My God! you can never lower the dignity of the Senate after this day."

When he recalls the general public condemnation of his appointment of the notorious Nat Goldstein, who admitted taking \$2,500 of the Loden campaign slush fund when a candidate for delegate to the Republican National Convention.

When he reflects upon the general protest against the leasing of the last of the naval oil reserves to subsidiaries of the Standard Oil Trust after they had been set aside by his predecessors for use of the oil-burning ships in the navy in National defense and the oil-burning ships of the Merchant Marine in the carrying of American commerce, and that the assumed personal responsibility therefor.

When he reflects upon the sorrow and shame he has cast upon the lives of old and faithful employees of the Bureau of Engraving and Printing whom he summarily discharged without warning and to whose pleas for a hearing he refused to listen.

When he recalls his party's promise to reduce taxes and then notes the fact that the only persons who have had their taxes reduced are multi-millionaires and war-profiteers.

When he recalls the promise of his party to revive industry and trade and then sees a Republican Congress passing a tariff bill which will inevitably destroy foreign trade and work further disaster to American industry—the high protective tariff bill which he himself advocated.

When he reflects upon the returns of the primary elections in Indiana and Pennsylvania containing a repudiation of a Do-Nothing Congress and his own administration by members of his own party.

When he reviews the fifteen months of the Harding administration and finds a minimum of accomplishments almost buried out of sight under a maximum of failure, with his party breaking up into factions, and scandals multiplying in his administration and the influential papers of his own party press arraigned against the principal economic policy of his administration.

But what's the use. When President Harding declares that there are times he wishes for a little while that he were not President of the United States he simply shares a wish that is common to an ever-increasing number of his fellow-citizens, and which, unless there is great improvement in his administration, of which there are no present signs, threatens to become general.

**REPUBLICANS DEMANDING RESIGNATIONS OF OFFICERS**

Senator Capper asking for the resignation of Secretary Weeks recalls the fact that the demand by Republicans for the resignations of Republicans in high places in this administration is generally prevalent and is increasing in intensity. The Republican press, or that part of it which still retains its independence and influence with the public, is demanding the resignation of Attorney General Daugherty; the demands for Senator Newberry's resignation have been matters of record ever since his election; the Washington Herald which is still supposed to reflect the views of Secretary Hoover, although he is out of it as an owner, says that the sentiment in Congress is such that it may lead to a demand for Secretary Fall's resignation, which ought also to call for the resignation of Secretary of the Navy Denby on the theory that the tail goes with the hide;

the job hunters are strongly in favor of the resignation of Secretary Mellon, which many think would have been forthcoming if he had been overruled in the matter of appointments in the Internal Revenue Bureau.

Still, as President Harding remarked, "Government is a very simple thing after all."

Approximately 12,510 tons of tin or 20 per cent of the total production was used in this country last year for the manufacture of motor vehicles.

**THE BOURBON NEWS, PARIS, KENTUCKY****CANTRILL WILL SPEAK FOR TOBACCO POOL**

Tobacco growers of Barren county will hold a meeting at Glasgow, Monday afternoon, July 17, and Congressman J. Campbell Cantrill will be the principal speaker. Mr. Cantrill will speak for the dark tobacco growers at Owensboro on the fifteenth.

The Glasgow meeting is to be a joint gathering of burley and dark growers, as there are a considerable number of each in that county. The burley growers will form a reorganization of their campaign forces, which signed up the county last fall, and start a drive for the remainder of the growers of burley outside the association.

The dark tobacco campaign in the county is expected to be given impetus by the visit of Congressman Cantrill, who is himself a large grower of burley tobacco and who spoke in all parts of the burley district in behalf of the cooperative marketing plan last fall.

Officers of the Burley Tobacco Growers' Co-operative Association closed Tuesday in observance of the holiday, one of the very few holidays that have been observed since the association started business, because of the large volume of work that has faced the office staff almost every day since the organization of the association under the Bingham co-operative marketing act last January.

**ALFALFA SHOULD HAVE PLACE ON MORE FARMS**

Despite the fact that alfalfa has a limited distribution in Kentucky, there is a place for the crop on many farms of the State, not as a major field crop, but as a crop for a small area of good land, crop specialists at the College of Agriculture say. It is a legume best suited to rich soils that contain plenty of lime, but most farms have from two to five acres that could be prepared rather easily for growing it. Fall seeding is more satisfactory in Kentucky in view of the fact that spring seedings are troubled with weeds and grasses.

Only two counties in Kentucky, Pendleton and Campbell, have a large area of alfalfa, these two growing half the acreage found in the State or nearly 28,000 acres, according to the 1920 census. The five leading alfalfa counties grow nearly four-fifths of all that is found in the State. These facts emphasize the limited distribution of the crop.

Sweet clover and limestone prepare the way for the successful growing of alfalfa. Both Pendleton and Campbell counties have limestone soils while sweet clover has been extensively grown in both of them, especially Pendleton. Much of it grew wild at first, these plants seeding and spreading over a larger area each year. The sweet clover inoculated the soil and thus prepared it for alfalfa.

There is no hay that is superior to that made from good alfalfa, the specialists claim. It is an excellent feed for stimulating the milk and butterfat production of dairy cows and also makes a good feed for growing stock or for animals that are being put into good condition for showing.

Since three or four crops can be cut in a season from good land, a few acres will furnish a considerable supply of feed. Any farmer who tines his soil heavily and seeds alfalfa on a few acres of his best land can expect good results from the crop. Good drainage, stable manure, phosphate fertilizers and careful preparation of the seed bed also increases the chances for a good stand.

**SUGAR EXPORTS MAKE NEW HIGH RECORD**

Sugar exports from the United States in the fiscal year which ends with June, the fiscal year 1922, will probably exceed those of any year in the history of our export trade. The United States, says the Trade Record of the National City Bank of New York, has enormously increased its exportation of refined sugar. This big increase occurred during the war and was in fact one of the consequences of the war which materially reduced the quantity of beet sugar produced in Europe and consequently intensified the demand for Cuban, Porto Rican and Hawaii cane sugars, most of which are refined in the United States. As a result we have become not only the world's largest exporter of refined sugars, but also the largest refiner of cane sugars, for practically all of the cane sugar of the three islands above mentioned passes from the hands of the producers in the raw state to the refineries of the United States, while the cane sugar of the other chief producer, Java, although not "refiner" in a strict sense of the term, is turned out in a condition in which it passes directly to the consumer, making it quite apparent that the sugar refineries of the United States handle larger quantities of sugar than those of any other country in the world.

**RULES FOR HOME MAKING**

Three rules for making a home attractive were recently given to a young married couple by an interior decorator. They were: Provide the necessary utilities, arrange an agreeable color scheme and, the final one, make the place livable.

**THE PROPER COURSE****Information of Priceless Value to Every Paris Citizen**

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders, or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What could be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Paris citizen who used them and who publicly tells of the benefit derived.

Mrs. A. L. Burley, 329 Eighth Street, Paris, says: "I have used Doan's Kidney Pills a few times and from the benefit obtained I can say they are a good reliable remedy. When my kidneys have acted irregularly or my back has been weak and lame I have always found that a box or so of Doan's Kidney Pills, which I got at Ardery's Drug Store relieve the complaint quickly."

The above statement was given November 10, 1916, and on November 12, 1920, Mrs. Burley said: "I haven't changed my opinion of Doan's Kidney Pills and recommend them just as highly to-day as when I gave my former statement."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

**NEWSPAPER TAX PLEA IS REFILED**

Holding that newspaper plants are not manufacturing establishments within the purview of the legislative act of 1917, Judge Davis Edwards denied an application of the Evening Post Company to enjoin the city of Louisville from assessing its plant for city taxes.

Newspaper plants in Louisville were exempted from taxation for city purposes, after passage of the revenue and taxation law at the special session of the Legislature in 1917, on the theory that the establishments contained machinery as specified by the law as manufacturing machinery.

However, the City Board of Equalization recently assessed all of the plants for taxes for the five years they were omitted, and the suit was filed to test the action of the board.

The case will be taken to the Court of Appeals and, pending the outcome in that court, no effort will be made by the city to require payment of the taxes on the assessments made by the board and the City Assessor.

Recently the Legislature passed a law to remedy the defect, if such it is, in the revenue and taxation law of 1917, and in the future the machinery of newspaper plants will be exempted from taxes for other than State purposes.

**REDPATH CHAUTAUQUA OPENS JULY 12**

The Redpath Chautauqua will open the season in Paris, Wednesday afternoon at three o'clock. Mr. H. H. Bowen, the advance man, is in town this week making all arrangements for the opening.

Mr. J. T. Hughes will be the superintendent this year. Mr. Hughes has had years of experience in the Chautauqua field and comes to Paris well qualified to act as superintendent.

The crew will arrive with the big brown tent next Monday or Tuesday, and will have everything in readiness for the opening.

The sale of season tickets is progressing very favorably, and the local committee is very much gratified over the results. Pledge cards are being rapidly redeemed, and the sale of tickets to those who did not pledge started Wednesday.

The Redpath management announces that the program this year is up to the standard of any Chautauqua in America, and well upholds the name of the big seven-day circuit in being the biggest and best Chautauqua circuit in America. Gov. Chas. H. Brough, former Governor of Arkansas, W. L. Harding, former Governor of Iowa, and Chester Milton Sanford will be three of the leading lecturers.

Two great American comedies, "Turn to the Right," and "Friendly Enemies" will be presented during Chautauqua week. The music has been given special attention this year. The Collegian Male Quartette, The Montague Light Opera Company, Liternances Little Symphony Orchestra and Viellas Hawaiians offer a variety of classical and popular music not to be excelled.

The tent will be located on the High School grounds again this year.

**REPORTS SHOW 61,000 MEMBERS**

Membership in the Burley Tobacco Growers' Co-operative Association has passed the 61,000 mark, as shown by the report of Assistant Chief of the Field Service Division William Collins, to the Board of Directors Friday, and the reports of field workers of contracts not sent in but already signed.

Assistant Chief William Collins' figures showed 55,617 growers of burley tobacco signed in the campaign last fall and 4,804 additions since the campaign closed, making a total of 60,421. President and General Manager James C. Stone estimated that 1,000 contracts, signed but not yet sent in to Field Service Headquarters, were in the hands of county chairmen or workers.

President Stone reported that the tobacco situation in West Virginia and the Ohio counties contiguous was favorable. Manager Clifton Rodes and his associates signing up the growers of that section at the rate of 160 to 175 a week. Director of Warehouses Ralph M. Barker reported that the prizing of green tobaccos to one of the largest brokers in the United States for export purposes. He said that a number of representatives of the larger manufacturers had been in Lexington recently and had called at the offices that their attitude appeared to be fair and friendly and that it was his opinion it would not belong before substantial sales could be announced.

## EVOLUTION OF JULY FOURTH

Two or three generations ago, judging by old newspapers, people took much more interest in the real meaning of July Fourth. Banquets and oratorical gatherings were held everywhere, with expressions of fervent Americanism.

The glorious achievements of our country were celebrated, while the powers of Europe were spoken of as effete nations whose sun had set and likeable about the spirit of those old patriotic gatherings, even though some of the remarks would now sound rather crude.

People had similar ideas in those days, and used to enjoy big noises and other primitive forms of celebration. So the habit of discharging firearms and making big bonfires got established as a means of expressing national joy. As time went on and people grew more sophisticated, the adults got sick of kiddish ways of observance, but the youngsters kept them up and developed them. They reached a point at one time where life in many cities on "the night before" bore a close approximation to one's conception of the infernal regions.

Fourth of July should be a glorious occasion, but we all seem too busy on various outings to observe it as it should be. Still many cities do show civic spirit by the interesting observances that they produce. A program of athletics is a suitable July Fourth event, and displays that mainly prowess which enabled the struggling colonists to fight a severe war against terrible odds. Parades and fireworks can be pretty and interesting observances that delight young folks and give opportunity for artistic effects.

The day ought not to be passed without suitable recognition, since it marked a turning point in history. It signified that a force of freedom and justice was born in the world, which was bound to revolutionize human life on this planet.

## Just History

In '78  
The Colonial Dame  
Spun her cloth  
By Candle flame.

In 1860  
In Crinoline bright,  
She greeted her guests  
By Coal Oil light.

And later on,  
How time does pass  
Her home was lit  
By flickering Gas.

But the girl of to-day  
Who wants her home bright,

## FIFTY-FOUR CONVICTIONS

(Frankfort State Journal)  
Sixty-two arrests in one month and 54 convictions by the wardens employed by the State Game and Fish Commission reflect high credit upon the service and indicate that there is plain proof of violation of the conservation laws.

The proportion of convictions to total arrests is indicative of a sound sentiment in behalf of laws which will prove highly and widely valuable if well enforced.

Violating the game and fish laws reflects as often as not ignorance of the value of the laws. The hunter or fisherman who is a violator has no real conception of the way in which fish and game can be increased where the law is obeyed. That there is little difficulty in convicting those who, in their ignorance of their own interest in conservation, violate the law is good indication of support of conservation. The educative effect of frequent convictions is highly useful.

It has been uphill work, but Kentucky is gaining ground as a conservator of game and fish. No project distributes so widely the benefits of its success.

## Catarrhal Conditions

## LOYAL TO HIS HOME TOWN TO THE DEATH

A young Kentuckian found himself in the front trenches facing the Hindenburg line. It was a terrible night, rain, storm, shell fire, hell. The enemy was fighting like a cornered rat. The air was heavy with gas shells, grenades, etc.

With the gray dawn of the morning the bombardment ceased as suddenly as it had begun and for the shambles and wreck of war there fell a strange, awe inspiring silence. The tension was increased rather than diminished, until it seemed that strong men must scream or lose their reason, unless some one or something should break that fearful and unnatural calmness. It came. Shouted at the top of a Kentucky voice, rancorous and belligerent, these words broke the soul-destroying spell—

"You're a liar. Paducah, Kentucky, has got the best street car system of any town in the world."

## Ancient Fortifications.

The explorers who attempted to scale Mount Everest discovered among other things, several ancient fortifications built in unexpected places in the high Tibetan mountain valleys, 15,000 feet above sea level. Partly to protect the fields from being washed away by mountain freshets and partly to guard against raids by enemy tribes, walls 20 feet high and often more than a mile long, guarded by strange round watch towers, were constructed at intervals at the head of these fertile valleys.

## Beauty in the South.

In the South the crepe myrtle becomes a small tree and turns a brilliant bronze almost or quite red, says the American Forestry Magazine. It is much grown for its summer and early fall flowers, but it also has value for the color of its ripening foliage on the approach of cold weather.

## On Sale everywhere from Now on The New & "USCO" Tire with many improvements

The price remains  
the same

**\$10.90**

for the  
**30 x 3 1/2**

When "USCO" announced its new low price of \$10.90 last Fall, the makers were already busy developing a still greater "Usco" value.

The new and better "Usco" as you see it today—with no change in price—and tax absorbed by the manufacturer.

You'll note in the new and better "Usco" these features—

Thicker tread, giving greater non-skid protection. Stouter sidewalls.

Altogether a handsomer tire that will take longer wear both inside and out.
